Weather Key Points

Regional Operations Center

Western Region

Monday, October 10

- Scattered showers and thunderstorms will again develop across the central and southern Sierra and the southern mountains and deserts Monday, persisting through Wednesday over the southern mountains
 - Widespread rainfall is not expected, but a few storms could bring locally heavy downpours as well as gusty winds and small hail
 - A few storms could also drift off the mountains into areas closer to the coast through Wednesday, though any activity near the coast looks to be very isolated
- Outside of any rain, breezy winds at times will maintain locally elevated fire weather conditions for the southern mountains and foothills through the week. Critical fire weather conditions are not expected.
- Additional scattered showers and storms could develop late in the week or into the weekend across portions of southern California and possibly the Sierra as well, though confidence in the timing or coverage of any rainfall remains low at this time. Widespread rainfall is still not expected.

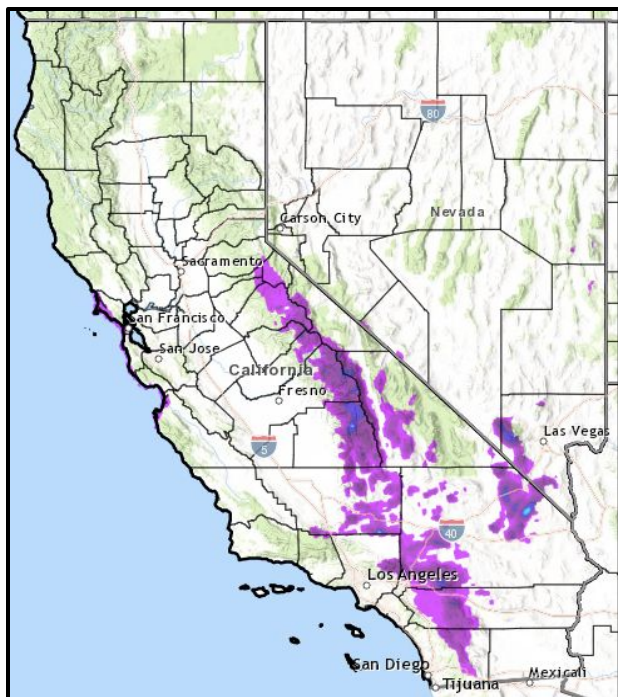

Precipitation Forecast

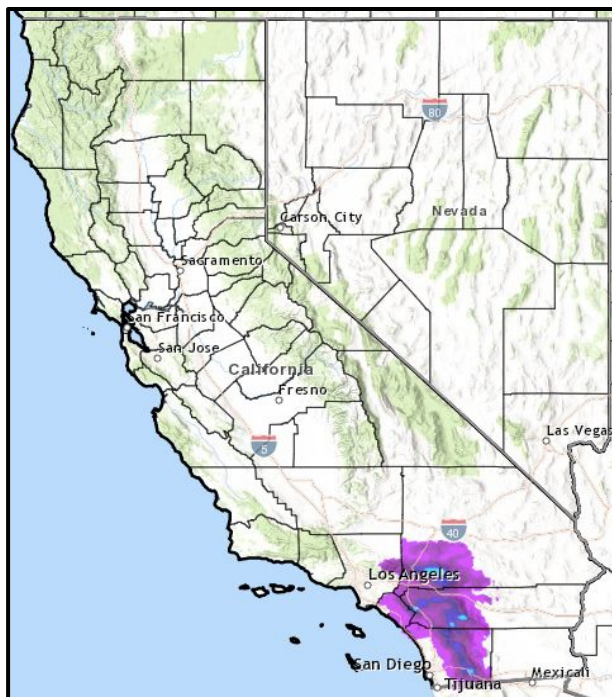

Regional Operations Center

Western Region

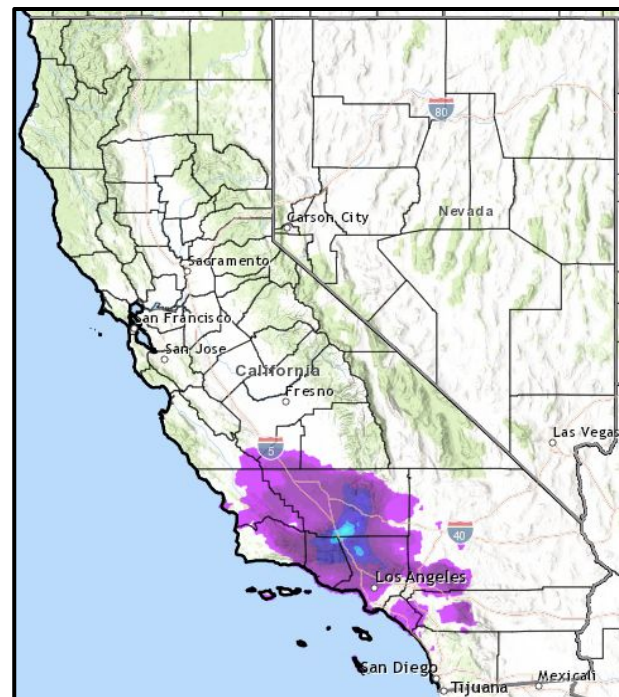

Monday, October 10

Monday

Tuesday

Wednesday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center
Western Region
Monday, October 10

6-10 Day Outlook (October 15 – October 19)

Temperatures

- Above normal temperatures are strongly favored to continue statewide

Precipitation

- Below normal precipitation is favored for all of northern California, with above normal precipitation slightly favored across far southern California

8-14 Day Outlook (October 17 – October 23)

Temperatures

- Above normal temperatures are again favored across the state

Precipitation

- Above normal precipitation is favored across much of southern California, while below normal precipitation is favored over the northern half of the state
